AP Human Geography Summer Work Letter

Dear AP Human Geography Students,

I am very excited to have you in the AP Human Geography course at AC! Although political geography is only addressed in one chapter of the textbook, students will need to have a good understanding of the location of the 50 states in the United States and most of the approximate 196 recognized countries of the world.

For your Summer Work in AP Human Geography, fill out the names of the countries of the world on the 15 regional maps in the Summer Work packet. On a few maps, you are asked to also label dependencies, islands, and areas of some countries. You might want to color code to keep countries, dependencies, islands, and areas separated. You may be creative in coloring your 15 regional maps. You do not need to label capitals of countries. You can find most countries on Google Maps and by using Seterra. There are many online atlas resources you can use. These 15 regional maps will be checked on the Friday of the first week of school. The 15 maps are required for a grade.

Once you have completed the 15 regional maps, you might want to do the quizzes on the countries of the world and the 50 United States on the Seterra website on your computers. There are plenty of other countries and states quizzes online on apps and websites you can use. This quiz work is not mandatory for the summer. However, it will give you a head start for your map quizzes throughout the year and the World Map Final Exam at the end of the year.

I look forward to meeting you in my classroom in August. If you have any questions, send me an email. Have a great summer!

In Christ,

Mr. Crawford
AP Human Geography Teacher at AC - bensoncrawford@augustachristian.org
